

Let us provide the help you need

We all know that life can change quickly, complicating our lives. A move due to illness, aging or even death can put each of us and our loved ones in a difficult position where certain personal belongings need to be moved, sold, or liquidated in a timely fashion. Depending on the particular event, a lifetime of accumulation needs to be sorted, moved, passed on to family members, sold, donated or thrown out. Not only is this an arduous and exhausting process, but family members often live in different cities or are just too busy with their own jobs and children to deal with these overwhelming and emotional issues.

Trusted TranZitions has more than 4 years experience and has completed hundreds of assignments. Our services are chosen and trusted by families, health care facilities, retirement communities, attorneys, bank trustees and Realtors – just to name a few.

Call us. We offer a free, one-hour, in-home consultation.

WHAT TO DO? WHERE TO GO?

That's where **Trusted TranZitions** comes in. **Trusted TranZitions** uses a multi-faceted sorting and selling strategy that provides our clients with the highest prices for their personal belongings. Gone are the days when auction companies and tag sales are your best or only methods of liquidating assets. By using a combination of marketing strategies and distribution channels – including tag sales, antique dealers, furniture resellers and the internet – to mention just a few – **Trusted TranZitions** insures that our clients receive the best price with the least amount of stress. Many times the monies made on the sale of unwanted assets more than pays our fees!
